Smoke Brushed

The designer's choice

Available in four colours carefully selected to suit the latest trends in interior design, Design Oak flooring is the first choice among architects, designers and interior decorators looking to create the latest style in looks and fashion.

The ultimate hardwood

Oak has always been synonymous with strength and durability – the Design Oak range continues this tradition with flooring that combines quality and durability with visual appeal.

Sustainable

Sustainable and eco-friendly, Design Oak uses only a veneer of timber over a stable substrate. This reduces the amount of valuable natural resources used in its production, making it more sustainable than a solid timber floor.

Quality without the price tag

While quality and design usually come with a high price tag, Design Oak doesn't. You can now have a real designer-look timber floor at a price that doesn't break the bank – and it will increase the value of your home.

Technical Specifications:

- Board dimensions: 1820x140x14mm
- 6 boards per pack to cover 1.529sq.m.
- Tongue & Groove Interlocking boards

Care & Maintenance

Caring for your Design Oak floor is easy. Vacuum or sweep the floor to remove dirt and debris, and use a slightly damp (but not wet) mop for regular cleaning. For preventative care, entrance mats and rugs in high wear areas should be considered, together with felt protectors for furniture and appliances.
